## ***Hayfield beats to a different drum***

**Hayfield Manor, Cork city's premier five-star hotel, has announced the relaunch of their newly refurbished Meeting and Events Facilities.**

All of Hayfield Manors meeting rooms are purpose built and enjoy natural daylight with integrated breakout areas. The challenge has been to maintain the original character of the hotel and fuse it with innovative technology to create an environment that is conducive to getting some real work done away from the usual distractions of the office. Hayfield Manor has recognised the trend that most corporate clients are now looking for interesting ice-breaker and team building activities and have joined forces with inspirational Cork based company, Lumos Consultancy, who provide organizations with effective work/ life balance programmes. This will provide organisers with fresh inspiration with the aim of enhancing management team effectiveness. To celebrate this partnership and the launch of their new facilities, Hayfield Manor in conjunction with Lumos Consultancy are offering all meeting organisers who book a meeting by the end of 2008 a complimentary planning session with lifestyle experts at Lumos Consultancy.
